

CGI

Global Delivery, Local Innovation

CGI has been a Canadian success story in the IT industry for more than 30 years. In 1976, two young entrepreneurs knew they could make a difference through innovative product offerings, sound client relationships, and a commitment to quality. To succeed, they set out to find like-minded professionals to join them in their venture. Today, CGI has 25,000 members worldwide – all of whom recognize the value of partnerships.

Through unique collaborations, CGI is a global force in the IT industry from its offices right here in Nova Scotia. The Atlantic Global Delivery Center (AGDC) in Halifax specializes in remote application development and maintenance, boasting

clientele throughout North America. CGI clients worldwide recognize the strength of the Atlantic region, giving the AGDC – and Atlantic Canadians – a truly global IT marketplace.

For CGI, investing in the region is a logical choice. CGI recognizes the talent and dedication of the local workforce, the quality of the educational system, and a government actively partnering in innovation. CGI believes the Atlantic region is a great place to grow its global delivery expertise, and Nova Scotians have what it takes to make CGI an extraordinary provider of IT capabilities.

CGI: Global Delivery, Local Innovation
