

Advanced Manufacturing

Nova Scotia, Canada

Did you know Pratt & Whitney's most modern manufacturing line is located in Nova Scotia? Or that Michelin has produced over 230 million tires in the province since 1971?

Attracted by our strategic location, logistics infrastructure, and expertise, Nova Scotia's manufacturing companies are exporting products around the world, generating approximately \$9.36 billion in annual revenues.

Nova Scotia's workforce is highly-educated, with universities and community colleges enrolling students from more than 100 countries around the world, offering a full-range of undergraduate and graduate programs in support of the advanced manufacturing sector.
