MESSAGE FROM THE BOARD CHAIR AND THE PRESIDENT AND CEO

Nova Scotia Business Inc. drives economic momentum in Nova Scotia through attracting and expanding investment, and helping businesses in all communities be more successful exporters. Nova Scotia Business Inc.'s impact can best be measured through the success of its private-sector companies who look for new opportunities, define their competitive advantage, and work hard every day to create innovative products and services.

In 2014-2015, Nova Scotia Business Inc. welcomed new private-sector companies to Nova Scotia, and helped over 250 Nova Scotia companies enter new or existing markets around the world. Nova Scotia Business Inc. provided business navigation services for over 680 clients and businesses across the province and charted 17 payroll rebates to encourage job creation.

2014-2015 also brought changes to Nova Scotia Business Inc. The government commissioned independent reviews of provincial economic development assistance programs and structures and as a result, Nova Scotia Business Inc. welcomed a new mandate.

The Nova Scotia Commission on Building Our New Economy's report identified bold targets with respect to increasing the value of exports as well as the number of companies exporting by 50 per cent over the next ten years. Nova Scotia Business Inc. recognizes the important role it must play in supporting and achieving these goals in order to ensure a strong, prosperous future for all Nova Scotians, today and tomorrow.

In 2015-2016, Nova Scotia Business Inc. will bring a new targeted focus to its efforts, strengthen its partnerships, and drive measurable results as it continues to sell the world on doing business in Nova Scotia and sell Nova Scotia businesses to the world. We look to the year ahead with refreshed motivation and emphasis and are excited about the role Nova Scotia Business Inc. will play in building Nova Scotia's future economic prosperity.

Janice Stairs

Board Chair

Nova Scotia Business Inc.

Laurel C. Broten

President and CEO

Nova Scotia Business Inc.

Board of Directors Overview

Due diligence and adherence to rigorous corporate governance guides the action of Nova Scotia Business Inc.'s private-sector board. Comprised of respected leaders from communities across Nova Scotia, the Board of Directors provides guidance and governance for business activities.

Including committee meetings, members of the board met in 2014-2015 to:

- Oversee the corporate governance framework
- Review and approve quarterly and annual financial reports
- Oversee the strategic business planning process
- Identify and monitor risks facing the corporation
- Monitor the integrity of the corporation's internal control systems
- Approve financial transactions within board limits.

MANAGEMENT DISCUSSION AND ANALYSIS

Context

Nova Scotia Business Inc., a Nova Scotia Crown Corporation, led by a private-sector board, is the lead business development agency for the Province of Nova Scotia. Management has measured and analyzed the agency's activities and performance for the fiscal year 2014-2015. This annual report is Nova Scotia Business Inc.'s yearly public accountability statement of the agency's performance against the goals it set through Nova Scotia Business Inc.'s approved annual business plan at the beginning of its fiscal year 2014-2015.

Nova Scotia Business Inc.'s Mandate 2015-2016

Nova Scotia Business Inc. was created in 2001, by the Nova Scotia Business Incorporated Act, to be the lead business development agency for the Province of Nova Scotia. Led by a private-sector board of directors, Nova Scotia Business Inc.'s goal is to be a key point of contact for businesses in all communities to help them grow and prosper in the province and beyond. Nova Scotia Business Inc.'s dual focus is to attract global investment to Nova Scotia to create new jobs and help Nova Scotia's businesses to grow and succeed in the global economy through business advisory services, skill development and training, financing, and support in accessing global markets. The act requires Nova Scotia Business Inc. to fulfill the following:

The object of the Corporation is to promote business development in the Province by working directly with businesses to support economic growth through:

- a) promote economic growth and business and social enterprise expansion in the Province by working directly with businesses and social enterprises;
- b) attract investment to the Province;
- c) connect businesses in the Province with export markets or opportunities outside the Province; and
- d) exercise and perform the functions and duties conferred on it by this Act and the regulations or as may be required to meet the terms of the current outcomes agreement pursuant to Section 31A, the business plan of the Corporation and the strategic plan of the Corporation.

Economic Context in 2014-2015

Nova Scotia does business in a global economy and is impacted by what's happening across Canada and around the globe. Because growth depends on our ability to export our products and services to larger markets outside our borders, it is important to have regard for the state of the economy in national and international markets.

The recovery from the 2009 global recession has been slower than expected, largely due to varying growth among major world economies, with some rebounding quicker than others.¹ The recovery in China, the United Kingdom, and the United States has been strong; however, China's growth is beginning to soften. Sluggish growth in continental Europe, Japan, Russia, and Latin America has also slowed global recovery.² The end of 2014 brought with it a sharp drop in the price of crude oil, which has had significant impacts both globally and here at home. Since crude oil exports are a large contributor to Canada's economy, the value of the Canadian dollar compared to the US dollar has been dropping. The drop of the Canadian dollar was also influenced by the decision of the Bank of Canada to cut interest rates from 1 per cent to 0.75 per cent, and there is speculation that further cuts can be expected

The drop in the value of Canadian dollar is expected to last through the end of 2016.³ What does this mean for Nova Scotia? While the low Canadian dollar will put pressure on Canadian consumers, who will have to pay more for goods and services from outside the country, it will help make Nova Scotia's exports more attractive to customers in the United States. All things considered, Nova Scotia will most likely see higher growth in terms of real GDP when compared to the national average through the end of 2016.⁴

Corporate Scorecard Notes:

1. A total of eighteen (18) investment transactions have been identified within the corporate scorecard. Fifteen (15) transactions are payroll rebates and three (3) are project management.
2. Average gross salary includes salary and benefits and is calculated using a weighted average.
3. ROI is calculated by ("Maximum forecasted direct tax recoveries" less "Maximum forecasted payroll rebate payout") divided by "Maximum forecasted payroll rebate payout".
4. Two hundred and fifty-five (255) clients were introduced to three hundred and ninety-nine (399) new markets, or reported further advancements in existing markets.
5. Client-reported actual and forecasted export sales of \$708 million relates to sales resulting from a Nova Scotia Business Inc. related trade program. Clients reported actual export sales signed at the time of the event of \$8.6 million. Clients were contacted again six months following the event and reported \$43.8 million incremental sales and forecasted an additional \$656 million in sales for the following 18 months.
6. Nova Scotia Business Inc. is no longer an active equity investor and no longer has the ability to do follow on investments. Nova Scotia Business Inc. continues to monitor and manage its portfolio. With no investments made into the portfolio from Nova Scotia Business Inc. in the past fiscal year, portfolio valuation was calculated comparing the value of the equity investments in 2013-2014 to its value in 2014-2015 as stated in the financial statements. The audited portfolio, as of March 31, 2015 is valued at \$15,452,000, a 47.5 per cent decrease over the previous year.
7. A total of six (6) business financing transactions were completed which consisted of three (3) loans, one (1) guarantee, and two (2) payroll rebates.
8. One (1) loan was withdrawn before it was disbursed.
9. Ratio of net economic benefit to province vs. write-offs is calculated by dividing the total direct taxes generated by portfolio clients by the total write-offs in the current fiscal year.

Corporate Scorecard Discussion and Analysis

Nova Scotia Business Inc.'s impact can best be measured through the success of its private sector clients. The 2014-2015 Corporate Scorecard shows that Nova Scotia companies continue to export more, tap into new markets around the world, and national and international companies are choosing Nova Scotia to expand their global footprint.

In the 2014-2015 fiscal year, Nova Scotia Business Inc.'s clients did business in 43 countries and forecasted client export sales increased from \$534 million to \$708 million, resulting in a 33 per cent increase over the previous year's forecasted export sales. The number of new exporters remained unchanged from the previous year with nine new companies reporting their first export sale. There was a 12 per cent decrease on the number of clients introduced to new or existing markets.

Nova Scotia Business Inc. saw a 90 per cent increase over the previous fiscal year in the number of companies that chose to locate or expand in Nova Scotia, resulting in new money into the Nova Scotia economy. Nova Scotia Business Inc. had a total of 25 transactions, which included 17 payroll rebates, three project management files and four loans.

Nova Scotia Business Inc. uses its knowledge of local industries and financing options to assist companies in accessing capital to help meet their growth potential. In 2014-2015, Nova Scotia Business Inc.'s business financing group worked with 300 companies and saw a 69 per cent increase over the previous fiscal year in the number of companies it helped navigate financial solutions through the private sector including traditional banks and private financiers.

With a new mandate for Nova Scotia Business Inc., it is no longer an active equity investor and no longer has the ability to do follow on investments to leverage private sector investment. Nova Scotia Business Inc. continues to monitor and manage its equity portfolio. As of March 31, 2015, the portfolio was valued at \$15,542,000, a 47.5 per cent decrease over the previous year.

With the change in mandate, Nova Scotia Business Inc. also welcomed back Business Development Advisors located in five offices across the province. These advisors take a collaborative and proactive approach to working with companies, from one end of the province to the other, to identify and assist with growth opportunities. In 2014-2015 they worked with 370 clients, making 310 referrals to other agencies, partners, and financial institutions to help them navigate the business landscape and the tools required to help companies succeed.

Looking Ahead

The Nova Scotia Commission on Building Our New Economy's report established a number of economic development goals with respect to increasing the value of Nova Scotia exports, as well as exporters by 50 per cent by 2024 in order to ensure economic growth for Nova Scotia.

Nova Scotia Business Inc. has embraced the critical role it must play in supporting these goals and our activities over the next year will be focused on developing and implementing strategic plans designed to achieve success in three key areas:

1. Increase the number of exporters and the value of Nova Scotia's exports by helping Nova Scotia businesses to become exporters for the first time or to expand and increase exports by targeting key strategic markets and promoting unique value-added products and services that are in demand around the world.
2. Attract and grow high-value investments from domestic, national, and international companies to expand Nova Scotia's opportunities in key targeted sectors such as financial services, information and communications technology, ocean technology, aerospace and defence, and creative industries, as well as secure job creating investments in targeted regions such as Nova Scotia's rural communities by bringing value-added, sustainable innovation to the traditional sectors of mining, forestry, agriculture, aquaculture, and fisheries.
3. Establish Nova Scotia as an international jurisdiction of choice in which to invest, work, and do business.

2015-2016 will be a foundation-building year at Nova Scotia Business Inc. as detailed evidence-based market and sector strategic plans are developed and transparent outcomes-focused metrics are established in order to guide our activities and measure their impact.

APPENDIX:

The fiscal year 2014-2015 marked a year of transition for the Department of Economic and Rural Development and Tourism (ERDT) as government re-defined its role in economic development. This transition culminated in the dissolution of the Department on April 9, 2015 and the establishment of the Department of Business. This change in direction saw many of the features of ERDT re-aligned with other departments and agencies such as Nova Scotia Business Inc.

As per the Treasury Board Guidelines, the measures in the 2014-2015 ERDT Statement of Mandate will be reported by departments or agencies who were the receiving entities of programs covered by the performance measures. Nova Scotia Business Inc. is reporting on the Service Export Program and Go-Ahead Program and the Credit Union Loan Guarantee Program.

Trade and International Competitiveness Outcome

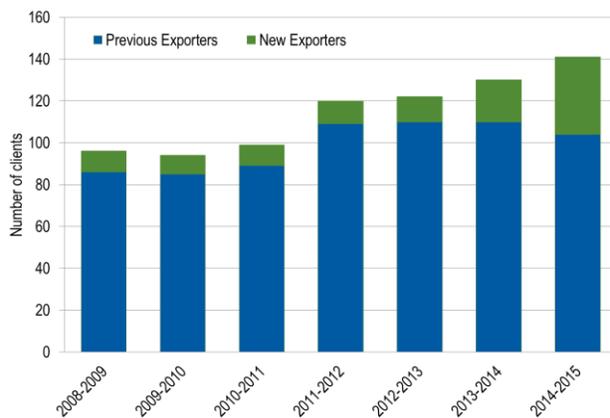

Increasing access to international markets

In 2014-2015, Nova Scotia Business Inc. administered the Go-Ahead Program (GAP) and the Service Export Program (SEP) on behalf of Economic and Rural Development and Tourism. Outcome measures for both of these programs were documented in the 2014-2015 Statement of Mandate for Economic and Rural Development and Tourism.

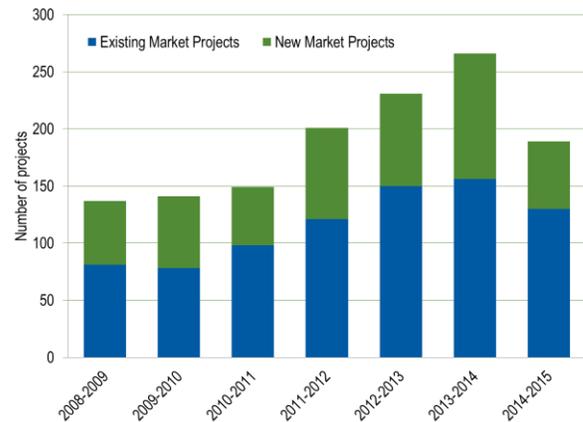

These programs in 2014-15 opened up new markets for over 30 percent of the 141 clients that participated. 104 of these clients were previous exporters and 37 of them were new exporters.* Nova Scotia companies who participated in these programs have reported \$23,453,219 in new sales.

**New exporters are considered new clients to the program and may have exporting experience.*

Exporters in SEP and GAP

New and Existing Markets for SEP and GAP Projects

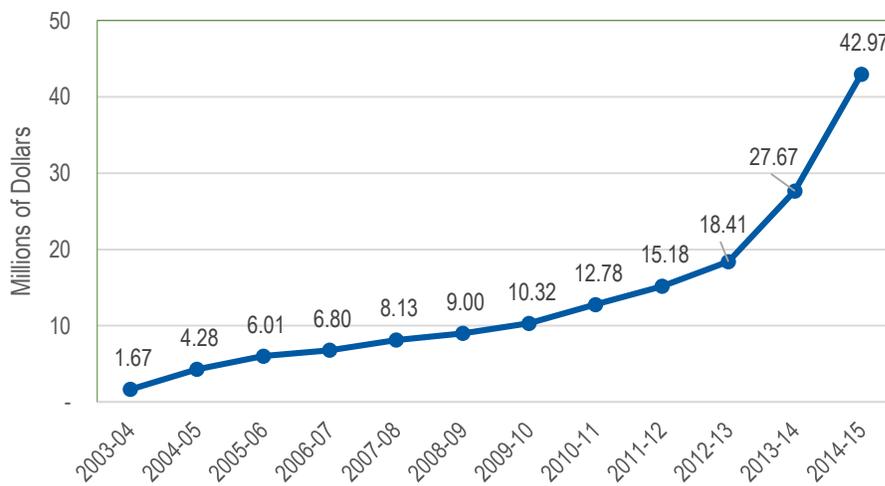

Small Business and Regional Development Outcome: Increased access to capital for small business

The Credit Union Small Business Loan Guarantee Program in 2014-2015, offered Nova Scotia businesses access to capital under three main streams; the Regular Business Stream, the Immigrant Financing Stream, and the Social Enterprise Financing Stream. This program was administered by Economic and Rural Development and Tourism and was transferred to Nova Scotia Business Inc. on April 9, 2015. The chart below represents the outcome measure that was documented in the 2014-2015 Statement of Mandate from Economic and Rural Development and Tourism.

2014-2015 saw a 55 per cent increase in the amount of capital being made available to small businesses in Nova Scotia over the previous year. The graph captures the total amount of loans authorized through the Credit Union Small Business Loan Guarantee Program, but does not reflect other financial instruments such as lines of credit.

Value of Loans

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The financial statements have been prepared by management in accordance with Canadian public sector accounting standards and the integrity and objectivity of these statements are management's responsibility. Management is also responsible for all of the notes to the financial statements and schedules, and for ensuring that this information is consistent, where appropriate, with the information contained in the financial statements.

Management is also responsible for implementing and maintaining a system of internal controls to provide reasonable assurance that reliable financial information is produced.

The Board of Directors are responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control and exercises these responsibilities through the Board. The Board reviews internal financial statements on a quarterly basis and external audited financial statements yearly.

The external auditors, Deloitte LLP, conduct an independent examination, in accordance with Canadian auditing standards, and express their opinion on the financial statements. The external auditors have full and free access to financial management of Nova Scotia Business Inc. and meet when required.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
Nova Scotia Business Inc.

We have audited the accompanying financial statements of Nova Scotia Business Inc., which comprise the statement of financial position as at March 31, 2015, and the statements of operations and changes in accumulated operating surplus, remeasurement gains and losses, changes in net financial assets and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Nova Scotia Business Inc. as at March 31, 2015 and the results of its operations, changes in net financial assets and its cash flows for the year then ended, in accordance with Canadian public sector accounting standards.

A handwritten signature in cursive script that reads "Deloitte LLP".

Nova Scotia Business Inc.

Notes to the financial statements

March 31, 2015

(in thousands)

Nova Scotia Business Inc. (the "Corporation") is a corporation, wholly-owned by the Province of Nova Scotia with an independent Board of Directors. The Corporation was established pursuant to the Nova Scotia Business Incorporated Act, Chapter 30 of the Acts of Nova Scotia, 2000. The Corporation's mission is to drive, through business development, a strong, prosperous and globally competitive Nova Scotia. The Corporation is not subject to provincial or federal taxes.

1. Summary of significant accounting policies

(a) Basis of accounting

The financial statements of the Corporation have been prepared by management in accordance with Canadian public sector accounting standards ("PSAS") as established by the Public Sector Accounting Board ("PSAB").

The Corporation follows the accrual method of accounting for revenues and expenses. Revenues are recognized in the year in which they are earned and measurable. Expenses are recognized as they are incurred and measurable as a result of receipt of goods and services and/or the creation of a legal obligation to pay.

(b) Cash and cash equivalents

Cash includes petty cash and amounts on deposit with financial institutions. Cash equivalents include short-term highly liquid investments with a term to maturity of 365 days or less at acquisition. All are measured at fair market value.

(c) Loans receivable

Loans receivable are recognized at amortized cost using the effective interest rate method. Loans receivable are classified as impaired when, in the opinion of management, there is reasonable doubt as to the timely collection of the full amount of principal and interest. A specific valuation allowance is established to reduce the recorded value of the impaired loan to its estimated net recoverable value.

A general allowance of 5% of cost is recorded to reflect anticipated future losses for all loans receivable which do not have a specific allowance.

Initial and subsequent changes in the amount of valuation allowance are recorded as a charge or credit to the statement of operations.

Loans receivable are written off after all reasonable restructuring and collection activities have taken place, and management believes that there is no realistic prospect of recovery. Once all or a part of a loan receivable has been written off, the write-off is not reversed, unless the loan receivable is recovered, in which case the recovery is credited to the statement of operations upon receipt.

(d) Equity investments

Equity investments in publicly traded companies are recorded at fair value using quoted prices in an active market with unrealized gains and losses being recognized in the statement of remeasurement gains and losses.

Investments in equity instruments of private enterprises are carried at cost with realized gains and losses recognized in the statement of operations in the period they are derecognized.

Investments in equity instruments of private enterprises are classified as impaired when, in the opinion of management, there has been a loss in the value of the equity instruments that is other than a temporary decline. A specific valuation allowance is established to reduce the recorded value of the impaired investments to their estimated net recoverable value.

A general allowance of 10% of cost is recorded to reflect anticipated future losses for all investments in private enterprises receivable which do not have a specific allowance.

The investments are reviewed twice yearly for potential declines in value.

A write-down of an investment to reflect a loss in value is not reversed if there is a subsequent increase in value.

Nova Scotia Business Inc.

Notes to the financial statements

1. Summary of significant accounting policies (continued)

(e) *Non-financial assets*

Non-financial assets are not available to discharge existing liabilities and are held for use in the provision of services. They have useful lives extending beyond the current year and are not intended for sale in the ordinary course of operations.

(i) *Tangible capital assets*

Tangible capital assets are recorded at cost which includes amounts that are directly attributable to acquisition, construction, development or betterment of assets. The cost, less residual value, of the tangible capital assets, excluding land, is amortized over their estimated useful lives as follows:

Asset	Basis	Rate
Buildings	Declining balance	5%
Wharves	Declining balance	5%
Utilities	Declining balance	4 - 15%

Assets not in use are not amortized until the asset is available for productive use.

In previous fiscal years, the Department of Transportation and Infrastructure Renewal had operational responsibility for the industrial parks and buildings. Certain revenues and expenses associated with the operation of the industrial parks and buildings were not reflected in NSBI's financial statements. However, effective April 1, 2014, Nova Scotia Business Inc. took over the operational responsibilities of these assets and their related expenses and revenues are now recorded in these financial statements.

Proceeds from the sale of assets less closing costs are remitted to the Province of Nova Scotia in the form of transfer payments. In current year, the transfer payments payable to the Province of Nova Scotia was \$53 (2014 - \$49).

(ii) *Contributions of tangible capital assets*

Tangible capital assets received as contributions are recorded in revenues at their fair value at the date of donation, except in circumstances where fair value cannot be reasonably determined, in which case they are recognized at nominal value.

(f) *Other assets*

Other assets consist of property acquired through foreclosure. Other assets are recorded at cost less a general allowance for the credit losses equal to 5% of cost. A specific allowance is recorded if management considers it necessary to reduce the asset to its estimated recoverable amount.

(g) *Due to the Province of Nova Scotia*

Amounts due to the Province of Nova Scotia, which are comprised of long-term debt, are recorded at amortized cost.

Nova Scotia Business Inc.

Notes to the financial statements

March 31, 2015

(in thousands)

1. Summary of significant accounting policies (continued)

(h) Government transfers

Government transfers are recognized in the financial statements in the period in which events giving rise to the transfer occur, providing the transfers are authorized, any eligibility criteria have been met, and reasonable estimates of the amounts can be made. The transfer payments recorded by the Corporation are flow-through arrangements of proceeds from the sale of crown assets which the Corporation administers and are remitted to the Province of Nova Scotia. In accordance with PS 3410, Government transfers do not include flow-through arrangements where a government agrees to act merely as an intermediary to administer funds on behalf of another party and has no ability to make decisions regarding the use of the funds.

Similarly, when funds are received as a result of an administrative flow-through arrangement in which a recipient government serves only as a cash conduit (i.e., it has no direct financial involvement in the program or decision-making capability in relation to the program) the receipt and disbursement of cash would not be recognized as transfers in that recipient government's financial statements.

(i) Revenue recognition

- (i) Government contributions are recognized as revenue in the period the transfer is authorized, and all eligibility criteria have been met, except when, and to the extent, the transfer includes stipulations which have not yet been met.

Government contributions with stipulations are initially deferred and recognized as revenue as the related stipulations are met.

- a. Operating grants have no criteria or stipulations and the Corporation recognizes revenue on an accrual basis, except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable.
 - b. Strategic investment grants are recognized when expenditure is recorded in accordance with the Corporation's approved budget and shall be provided in accordance with policies and procedures set out in the Corporation's business plan.
 - c. Loan valuation grant is provided by the Province of Nova Scotia to offset the provision for credit losses and payment of guarantees.
 - d. Miscellaneous consists of various contracts for trade programs. Revenue is recognized in the period the transfer is authorized, and all eligibility criteria have been met, except when and to the extent the transfer includes stipulations which have not yet been met.
- (ii) Interest revenue on the loans receivable is recognized on an accrual basis unless the ultimate collectability of the loan is in doubt. When a loan is classified as impaired, interest revenue is no longer recognized, and any interest income that is accrued is reversed. A loan is considered impaired when there is risk of loss to the Corporation of the full and timely collection of principal and interest; generally, when it is more than three months in arrears. In the event a loan is no longer considered to be impaired, interest revenue is recognized in the year of recovery.

(j) Provision for credit losses and payment of guarantees

The provision for credit losses is partially offset by a non-cash loan valuation allowance contribution from the Province of Nova Scotia. The contribution is recorded as both a receivable and revenue.

Nova Scotia Business Inc.

Notes to the financial statements

March 31, 2015

(in thousands)

1. Summary of significant accounting policies (continued)

(k) Employee future benefits

- (i) The Corporation provides certain employee benefits which will require funding in future periods. These benefits include vacation pay and public service awards. Upon retirement, employees are eligible for a public service award equal to one week's salary per year of service to a maximum of twenty-six years. Management recognizes compensation expense on an accrual basis with actuarial assessments being carried out every three years. The next assessment is due in the 2017 fiscal year.
- (ii) Permanent employees of the Corporation participate in the Public Superannuation Fund (the "Plan"), a contributory defined benefit pension plan administered by the Province of Nova Scotia, which provides pension benefits based on length of service and earnings. Contributions to the Plan are required by both the employees and the employer. The costs of the employer pension benefits are the Corporation's contributions due to the Plan in the period. The Corporation is not responsible for any under-funded liability, nor does the Corporation have any access to any surplus that may arise in this Plan.

(l) Use of estimates

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. Significant estimates included in the financial statements relate to the valuation of the loans receivable and equity investments. Actual results could differ materially from these estimates.

(m) Impairment of long-lived assets

Tangible capital assets are written down when conditions indicate that they no longer contribute to the Corporation's ability to provide goods and services, or when the value of future economic benefits associated with the tangible capital assets are less than their net book value. The net write-downs are accounted for as expenses in the statement of operations.

2. Loans receivable

	2015	2014
	\$	\$
Principal due	60,436	64,227
Allowance for credit losses (Note 6)	(26,643)	(24,091)
	33,793	40,136

Interest charged on these loans ranges from 0% to 12%. Repayment terms are negotiated on specific loans and would normally not exceed 20 years. The level of security on loans is also negotiated between the Corporation and the debtor based on the risk associated with the individual loan. The security can include life insurance, company assets, personal guarantees or the value of the parent company. Security can range from an unsecured position to a fully secured position.

Nova Scotia Business Inc.

Notes to the financial statements

March 31, 2015

(in thousands)

7. Long-term debt due to Province of Nova Scotia (continued)

Note payable 2002-01 in the amount of \$1,291 (2014 - \$1,334) has no set terms of repayment with the Province of Nova Scotia. The principal for this is repayable to the Province when the principal is collected from the loans that are funded by this note. In addition, 80% of the interest received or capitalized on the underlying loans is repayable to the Province.

The remaining notes are repayable in quarterly instalments of principal and interest based on maturity dates and rates set as above.

(b) Principal repayments on the notes, excluding note 2002-01, are as follows:

	\$
2016	22,987
2017	13,537
2018	8,572
2019	3,014
2020	13,206
Thereafter	5,424
	<u>66,740</u>

Future scheduled interest capitalization amounts of \$2,435 (2014 - \$1,745) on certain existing notes payable are excluded in the above repayment amounts.

The total interest paid or payable during the year and recorded in the statement of operations was \$2,181 (2014 - \$2,184).

8. Share capital

The Corporation is authorized to issue 100 Class A common shares with a par value of \$1 each. At year-end, 100 common shares have been issued to the Province. Share capital is grouped with accumulated surplus on the statement of financial position.

Nova Scotia Business Inc.

Notes to the financial statements

(in thousands)

9. Contractual obligations

- (a) The Corporation has approved financing of \$99 (2014 - \$3,698) that has not been disbursed as at year-end.
- (b) The Corporation administers strategic investments on behalf of the Province of Nova Scotia that permit approved businesses to receive a percentage of payroll taxes paid as a rebate. Expenses incurred by the Corporation are match-funded by the Province of Nova Scotia in the form of a Strategic Investment Grant.

As at March 31, 2015, transactions were approved with maximum annual payments over the next ten years of \$100,647 (2014 - \$77,672) as shown below:

	\$
2016	21,559
2017	21,549
2018	18,628
2019	13,583
2020	10,139
2021	4,019
2022	2,985
2023	2,763
2024	2,763
2025	2,659
Total	100,647

10. Contingencies

- (a) Guarantees

	Authorized	Utilized 2015	Utilized 2014
	\$	\$	\$
Bank loans	1,500	625	-
Less: provision for payment (Note 6)	-	149	-
	1,500	476	-

The guarantees are secured by various assets and proceeds from liquidation are expected to offset a portion of any possible payments under guarantees.

- (b) Litigation

The Corporation is co-defendant with the Province of Nova Scotia and Industrial Estates Limited in a dispute regarding environmental contamination on land previously owned by Industrial Estates Limited. The Corporation believes that any losses incurred related to this claim will be fully funded by the Province of Nova Scotia.

The Corporation is unable to form an opinion in regard to the likelihood of loss arising from the above litigation. Consequently, no provision for any possible loss has been recorded in these financial statements.

In addition, there are other outstanding claims against the Corporation for events that have arisen in the normal course of carrying on the operations of the Corporation. It is not possible at this time to determine the amount that may be assessed, or the impact to the Corporation's financial statements, with respect to these claims.

Nova Scotia Business Inc.

11. Financial instruments

(a) Fair value

Equity investments in publicly-traded companies are recorded at fair market value, which represents the last bid price for the stock on the stock exchange. The Corporation sold all its publicly traded equity investments in the current year.

Fair value measurements in connection with the allowance for credit losses recognized in Notes 2 and 3 are categorized using the fair value hierarchy that reflects the significance of inputs used in determining the fair values:

- Level 1 - unadjusted quoted prices in the active markets for identical assets or liabilities;
- Level 2 - inputs other than quoted prices included in Level 1 that are observable for the assets or liability, either directly or indirectly; and
- Level 3 - inputs for assets and liabilities that are not based on observable market data.

Cash and cash equivalents and the portfolio investments in equity investments traded in active markets have been recorded as Level 1 using the fair value hierarchy.

(b) Financial risk factors

Risk management relates to the understanding and active management of risks associated with all areas of the business and the associated operating environment. The Corporation's Nova Scotia Business Fund assets are primarily exposed to credit, interest rate, market price and liquidity risk.

(i) Credit risk

Credit risk is the risk that an issuer or counterparty will be unable to meet a commitment that it has entered into with the Corporation. To mitigate this risk, the Corporation has developed the following policies:

Before financing is approved, a risk assessment is performed on the client. Each application is designated a risk rating based on the industry and business, quality of management, financial history and projections, the level of other creditor involvement and shareholder participation, and environmental risks. The terms and conditions of the approved financing are reflective of the assessed risk. Applications with unacceptable levels of risk are not approved.

Clients are usually limited to a total of \$15 million in financing from the Corporation's Nova Scotia Business Fund. Three clients have exceeded this total in the past; two were approved in the Nova Scotia Business Development Corporation Fund and transferred to the Nova Scotia Business Fund via legislation on November 6, 2001 and both were paid out in a previous year. A third client, that was authorized financing of \$15,100 approved in fiscal 2011, currently has an outstanding balance of \$13,134 which is now below the \$15,000 financing limit threshold (2014-\$14,342) and has now been fully disbursed.

The risk rating for all clients is monitored on an on-going basis. Clients identified as higher risk are further assessed at year end to determine the extent of potential loss, taking into account the value of the security pledged in support of the financial assistance. This assessment could result in a reduction in the carrying value of the investment via the provision for credit losses.

(ii) Interest risk

Interest rate risk is the risk that the market value of the Corporation's investments and debt will fluctuate due to changes in the market interest rates. Interest rate risk is mitigated due to the fact that the Corporation matches the repayment timing of amounts borrowed with the repayment timing of financing advanced as closely as practical. It is management's opinion that the Corporation is not exposed to significant interest rate risk arising from financial instruments.

Nova Scotia Business Inc.

Notes to the financial statements

(in thousands)

11. Financial instruments (continued)

(b) Associated risks (continued)

(iii) Market price risk

Market price risk is the risk that the value of an investment will fluctuate as a result of changes in the market prices, whether those changes are caused by factors specific to the individual financial instrument, its issuer or factors affecting similar financial instruments traded in the market. As these equities are carried at fair value with the fair value changes recognized in the statement of remeasurement gains and losses, all changes in the market conditions will directly result in an increase (decrease) of accumulated remeasurement gains (losses). However, in 2014 fiscal year, the Corporation redeemed all investments held in publicly traded equities.

(iv) Liquidity risk

Liquidity risk is the risk that the entity will encounter difficulty in meeting obligations associated with financial liabilities. Liquidity requirements are managed through the receipt of provincial grants, income generated from loans receivable and equity investments, and principal repayments received on loans receivable. These sources of funds are used to pay operating expenses and debt servicing payments to the Province of Nova Scotia. In the normal course of business the Corporation enters into contracts that give rise to commitments for future payments which also impact the Corporation's liquidity. The Corporation also maintains cash on hand for liquidity purposes and to pay accounts payable and accrued liabilities.

The following table summarizes the fixed contractual maturities for all financial liabilities as at March 31, 2015:

					2015	2014
	Within 1 year	2 to 5 years	6 to 10 years	Over 10 years	Total	Total
	\$	\$	\$	\$	\$	\$
Accounts payable and accrued liabilities	15,280	-	-	-	15,280	8,326

Conversion of accrued interest to equity investments	85	144
Conversion of preferred dividends to equity investments	1,225	1,351

14. Related party transactions

During the year, there were no companies controlled or otherwise not independent of all of Nova Scotia Business Inc. eligible for payroll rebate rewards (2014 - \$nil).

As at year-end, the total amount outstanding to companies that were controlled by, or otherwise not independent of, certain directors of Nova Scotia Business Inc. was \$12,995 (2014 - \$18,123) for financial assistance. Certain of these investments have specific allowances recorded against them totaling \$500 (2014 - \$4,330) and the Corporation has also recorded a 10% general reserve recorded against as well. Furthermore, there were no payroll rebates under this category this year (2014 - \$336).

The Corporation occupies premises for which no rental fee is charged by the Province of Nova Scotia. Management estimates the annual cost to lease the premises is approximately \$683 (2014 - \$686).

The Corporation receives legal services free of charge from the Province of Nova Scotia. Management estimates the annual cost of these services is approximately \$300 (2014 - \$300).

During the year, due to the change in the Corporation's mandate, certain employees were transferred from the Province of Nova Scotia to the Corporation on secondment basis effective September 1, 2014. The related costs including operating costs in the amount of \$907 were fully absorbed by the Province of Nova Scotia and are not reflected in these financial statements.

Nova Scotia Business Inc.

Notes to the financial statements

March 31, 2015

(in thousands)

14. Related party transactions (continued)

These transactions were carried out in the normal course of operations and on terms and conditions that would be similar to those of non-related parties.

15. Employee benefits, post-retirement benefits and other liabilities

(a) The employee benefits, post-retirement benefits and other liabilities, reported on the statement of financial position, are made up of the following:

	2015	2014
	\$	\$
Public service awards	720	676
Vacation pay	237	213
Other payroll accruals	360	630
	1,317	1,519

(b) Pension benefits

All full-time employees are entitled to receive pension benefits pursuant to the provisions of a pension plan established under the Public Service Superannuation Act ("PSSP") based on the employees' length of service and earnings. The plan is funded by the employee and the employer contributions. The employer's contributions for 2015 were \$525 (2014 - \$514) and are recognized as an operating expense in the year. As a result of changes to the PSSP that took effect April 1, 2013, the Province of Nova Scotia is no longer responsible for any unfunded liabilities of the PSSP, and the Province no longer administers the PSSP. The PSSP is now administered by an independent trustee, the Public Service Superannuation Plan Trustee Inc., which also administers the actuarial and investment risk.

16. Comparative figures

Certain comparative figures have been reclassified to conform with the financial presentation adopted in the current year.

17. Subsequent event

On April 9, 2015, the Nova Scotia provincial government tabled the March 31, 2016 budget in the House of Assembly, which included the elimination of the Film and Creative Industries Nova Scotia ("FCINS") agency's funding and a plan to cease its operations. Legislation introduced in the spring assigned all assets and liabilities of FCINS to the Corporation effective April 9, 2015. The Province of Nova Scotia will be fully funding any associated costs. There has been no adjustment to these financial statements to reflect this subsequent event.
